Kidus Kidanewold

Addis Ababa, Ethiopia · kidakidanwoled@gmail.com · github.com/kidusk12 · linkedin.com/in/kidus-kidanewold-78b243341

SUMMARY

Third-year Computer Science student with a backend focus, experienced in leading teams of five to build and deploy full-stack web and mobile products with Node.js, PostgreSQL and React. Open to internships and junior roles.

SKILLS

React, Express, Node.js, JavaScript, Tailwind CSS, Python, PostgreSQL, Prisma, Dart/Flutter, GitHub, Testing

PROJECTS

Berhan Stock, Multi-Branch Stock Management | Team Lead, Backend Developer (team of 5)
berhanstock.netlify.app · github.com/kidusk12/Stock

- Led a 5-person team building a multi-branch stock system with a Node.js, Express, Prisma and PostgreSQL backend and a React frontend; designed the database and the stock engine.
- Implemented server-enforced access control for 4 roles, an append-only audit log, and a transaction-safe stock engine that prevented overselling in concurrent-sale testing.

Ethio-Airbnb | Team Lead, Backend Developer (team of 5)
ethio-airbnb-delta.vercel.app · github.com/kidusk12/Ethio-Airbnb

- Led a 5-person team building a rental platform with a React web app, a Flutter mobile app and a shared Node.js, Express and PostgreSQL API, using sprint-based Agile in Jira and reviewed pull requests.
- Developed backend features for listings, search and filters, bookings with double-booking prevention, and JWT authentication.

Fake Store Flutter App | Solo practice project
github.com/kidusk12/fake_Store

- Built a Flutter shopping app on the Fake Store API using Riverpod, go_router and clean architecture.
- Implemented a cart with local persistence, product search, category filters, and loading, empty and error states.

EDUCATION

American College of Technology, Addis Ababa: BSc Computer Science (3rd year), expected graduation June 2028

TRAINING & LEADERSHIP

- INSA Cyber Talent Center: Summer Camp, Development track
- Leadership role, Betel St. Michael Church, Addis Ababa, Ethiopia

LANGUAGES

Amharic (fluent), English (fluent)
